Repeated Robberies Caused Them to Put on More Men and Reverse the Usual Order of Things-No Calls Turned in From the Beats After Midnight.

These figures were the police of the First precinct clad in civilian dress. This disguise was assumed because of the numerous recent bold robberies in that part of the city covered by this precinct. Maj, Moore told The Times that this method was resorted to at the discretion of the lieutenants to render the small and hadly scattered force more effective.

## The Safest and Best Field for Investment.

Capital is always seeking safe and profitable investment—the most inviting field to-day is cotton manufacturing in the South. There is probably as well-managed mill in the South that is earning less than 10 per cent net profit and most of them are doing much better. Very many are earning from 25 to 25 per cent.

Cotton Mills in the South that is earning less than 10 per cent net profit from 25 ber cent, in the face of the general depression of the last few years, this is a phenomenal record for any laveatment.

At present there are \$8.500.000 cents for aphiles in the world. The South furnishes the raw material for ever one-half neared section is now shipped from 1.00 to 3,010 miles to mills in New England and Great Britain, is manufactured in mills where coal cests from \$1.50 a ten and certain certain returns on the investment.

The Newpoort News Cotton Manufacturing Co.

The Newport News Cotton Manufacturing Co. Offer to investors, both to large and small (and, indeed, particularly to small) investors, an opportunity which promises the most profitable returns.

The Newport News Cotton Manufacturing Company is organized on the co-operative plan, with an authorized capital of \$500,000; par value of the shares \$100, payable \$2 per share at the time of subscription, and \$2 per share monthly until paid.

It has general offices at Richmond, Va., and the most prominent business men of that city are its stockholders and officers.

OFFICERS OF THE NEWPORT NEWS COTTON MANUFACTURING COMPANY:

LEWIS H BLAIR, President
A S. BUFORD, Vice President.
S. G. WALLACK, Secretary and Treasurer.
GEO. A. SCHMELZ, Assistant Treasurer.
Judge L. I. LEWIS, Attorney
SMITH & ELAM, General Agents. BOARD OF DIRECTORS.

LEWIS H. BLAIR (Harvey Biair & Co., Wholesale Grocers; Stephen Putney & Co., Wholesale Boots and Shoes), President United Banking and Building Company, Richmond, Va. A. S. BUFORD, President Metropolitan Building and Loan Association; Director Merchants National Bank, Richmond, Va.

CLAY DREWKY, Wholesals Dry Goods and Notions; Director Security Bank of Richmon I, Richmond, Va. GEO, A SCHMELZ (Schmelz Bros., Bankers), Newport News, Va. C. W. TANNER (C. W. Tanner & Co., Varnish Manufacturers, Oli, &a.), Director Security Bank of Richmond; President Mutual Guarantee Building and Loan Association, Richmond, Va.

M. B. CROWELL, General Agent Old Dominion S. S. Company; Director First National Bank. Newport News, Va.
 S. G. WALLACE, Cashler Citizene' Bank of Richmond, Richmond, Va.

Newport News as a Location. There is probably so better location in the United States for a cotton mill than Newport News. The population of the town is about 10,000, while at Hampton and surrounding points there are about 10,000 more, thus furnishing an abundant supply of good operatives. Newport News boint one of the largest coal suppling points in the United States, the best steam coal can be had at a minimum cost. West Virginia coal can be laid down at less than \$2.60 a ton against \$3.60 a ton which is paid by many of the meet successful mills in North Carolina. Its location furnishes abundant transports ion facilities by which to draw cotton by water from all Southern points, as well as for shipment of the finished product to any part of the world.

An Opportunity for Small Investors.

Heretofore small investors have not generally been able to share in the large profits made by cotton mills; building associations and savings banks have been their only means for accumulating savings. By this system, so successfully introduced into the Scuth, everyone who can bay aside even \$2.00 a mouth can become a stocaholder in a cotton-mill. As funds accumulate under this system of mouthly payments, the contracts for the buildings and machinery can be let, without waiting until the final installments are paid in an additional payments.

## Opinions of Leading Financial Men

on Cotton Milling in the South.

W. S. Witham, of Atlanta, who is president of twelve banks in Georgia and Alabama: "the average net earnings of several cotton mills I am acquainted with will run to about 14½ per cent." I believe a cotton mill, with a fair working capital, well managed, will make from 25 to 35 per cent. I know of one which searced 46 per cent net in 1991. We advance moner on cotton mill stock, cotton goods in storage, at a less rate than on any other colinieral."

A. L. James. President of the Bank of Laurinburg, Laurinburg, N. C.: "There are eight mills in this county. The profit during this year in the cotton mills busines also been and is still very large; that is, it is from 10 to 35 per cent. I know of nothing else in our section to at pays so large a profit."

J. G. Shea, Cashier City National Bank, Griffin, car. "The Griffin Manufactur ing company in 1887 paids a 6 per cent dividend; in 1888, 10 per cent; and has steadily paid 10 per cent. dividends ever since, and still carries a surplus of over 30 per cent added to its capital out of its earnings. In 1831 it paid 6 per cent; in 1892, 7 per cent; in 1893, 8 per cent; in 1893, 8 per cent, in 1894, 8 per cent, in 1894, 10 per cent, and in 1893 it has no far paid 10 per cent."

W. C. and Lanter, Bankers, West Point, Ga., who also control cotton-mills with an aggregate envestment of about \$1,000,000. "The capital stock of our mills aggregates \$1,000,000. Our pay rolls aggregate \$20,000, and about \$100,000 are paid out to stockholders, besides laying up a surplus for extensions."

L. C. Havne, president National Bank of Augusta, Augusta, Ga: "Cotton manufacturing it the South has always proven astisfactor; as a paying industry, and from the establishment of the first cott in factory to the present time the mills have not only proven the wisdom of investment is cofer, and few, if any, are more profitable."
